

Doom-POCalypse FAQ

General Questions

Q: What is Doom-POCalypse?

A: Doom-POCalypse is an immersive, post-apocalyptic survival platform blending strategy, community building, and storytelling. Players form factions, navigate doomsday scenarios, and make critical decisions that impact their group's survival. It incorporates cryptocurrency and NFTs, allowing players to earn real-world benefits through in-game achievements.

Q: How does the game work?

A: Players choose or create factions based on belief systems and values. Together, they face scenarios like global economic collapse, pandemics, or natural disasters. Each decision you make affects your faction's survival, resources, and alliances. Gameplay involves resource management, strategy, and navigating betrayal, infiltration, or other conflicts within and between factions.

Q: What sets Doom-POCalypse apart from other survival games?

A: Doom-POCalypse bridges the gap between gaming and reality by fostering real-world connections, community building, and opportunities to earn cryptocurrency. Its dynamic narrative system ensures unique, player-driven outcomes.

Cryptocurrency and NFTs

Q: What role does cryptocurrency play in Doom-POCalypse?

A: Doom-POCalypse features its own cryptocurrency, which can be used to purchase in-game items, upgrade faction resources, and even buy real-world products like exclusive merchandise. Players can also cash out their earnings into real money.

Q: How do NFTs work in the game?

A: NFTs serve as digital badges, collectibles, and rewards for significant in-game achievements. These badges grant exclusive perks, such as access to special events, voting privileges on game updates, or discounts on real-world merchandise.

Q: Can I transfer my earnings to other crypto wallets or platforms?

A: Yes, Doom-POCalypse is designed to allow players to transfer their cryptocurrency balances to external wallets, making it possible to trade or convert into other currencies.

Gameplay Mechanics

Q: How do factions work?

A: Factions are groups of players united by shared values and goals. You can join an existing faction or create your own. Each faction manages resources, makes decisions, and interacts with other groups—whether through alliances, trade, or conflict.

Q: What happens if my faction is infiltrated or betrayed?

A: Betrayal and infiltration are part of the gameplay. If someone betrays your faction, it may lead to resource loss, internal conflict, or a shift in power dynamics. How your faction handles these challenges will determine its survival.

Q: Can I play solo?

A: While Doom-POCalypse emphasizes community and factions, solo players can still participate by choosing roles like mercenaries, traders, or lone survivors. However, working with others often increases your chances of survival.

Real-World Connections

Q: How does Doom-POCalypse build real-world communities?

A: The platform encourages collaboration and interaction between players with similar interests and values. By working together in the game, players can form real-world connections, join exclusive community events, and participate in forums and meetups.

Q: Are there tangible rewards for playing?

A: Yes, in addition to cryptocurrency earnings, players can access real-world rewards like limited-edition Doom-POCalypse merchandise, exclusive NFT drops, and recognition for their achievements in the community.

Crowdfunding and Development

Q: How is Doom-POCalypse being funded?

A: We're launching a GoFundMe campaign to bring Doom-POCalypse to life. Funds will go toward game development, blockchain integration, marketing, and community-building efforts.

Q: What are the reward tiers for donors?

A: Donors will receive exclusive rewards based on their contribution, such as early access to the game, custom NFTs, special digital badges with perks, and opportunities to participate in beta testing and community events.

Technical Details

Q: Will Doom-POCalypse be available on multiple platforms?

A: Yes, Doom-POCalypse will be accessible on web, PC, with plans to expand to consoles and mobile platforms based on community feedback.

Q: Is the game secure?

A: Absolutely. All cryptocurrency transactions and NFTs are powered by secure blockchain technology, ensuring player assets are protected.

Q: How often will the game be updated?

A: Regular updates will introduce new scenarios, mechanics, and features based on community input. Early contributors will have voting power in shaping the game's future.

Q: How can I get involved?

A: You can support our GoFundMe campaign, follow us on social media for updates, or sign up to join the community for early announcements, beta testing, and exclusive perks.
